

Delivering safe, quality projects with integrity

Wallaroo Shores Development – Links Road

CLIENT: District Council of Copper Coast

LOCATION: Wallaroo, SA, 5556

PROJECT VALUE: \$6 Million

CONSTRUCTION PERIOD: December 2017 – July 2019

SCOPE OF WORKS:

Construction of a new greenfield roadway consisting of approximately 800 meters in length. Roadway constructed for upcoming resort/ subdivision in Wallaroo. Scope of works also included but were not limited to:

- Bulk earthworks cut to fill including excavation of rock
- Pavement construction - multi-layer granular pavements for new road (i.e. preparation of subgrade, subbase & base course PM1/20 & PM2/20) including prep & lay of 50mm asphalt
- Installation of large stormwater drainage pipework & associated pits – cross & longitudinal (i.e. 1200, 1050, 900, 825, 750, 600, 450 & 375 RCP's);
- Concrete works – kerbing & footpaths including exposed aggregate
- Common service trenching & installation for new street lighting & NBN services including pole footings & erect light poles, installation of transformers, LV & HV electrification
- Complex environmental risk management – implementation of an EMP for dealing with contaminated soil onsite during construction – all works undertaken via strict auditing conditions
- Dilapidation survey, dust monitoring & control management.
